## 2. Securing of work safety

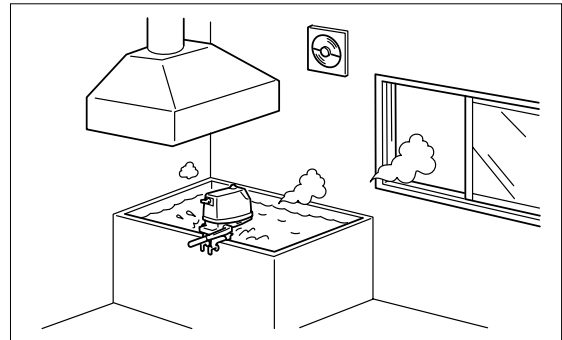

### 1) Fire Prevention

Gasoline is hazardous material and very flammable. Do not handle gasoline near ignition source such as spark or static electricity.

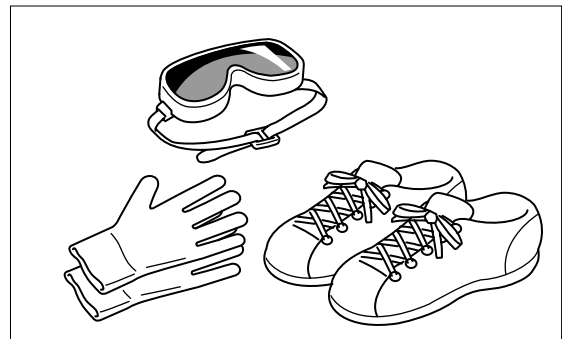

### 2) Ventilation

Exhaust gas or gasoline vapor is hazardous for human health. Be sure to ventilate well when working indoors.

### 3) Protection

Wear a pair of goggles, working gloves and safety shoes to protect your body from chemicals and oils and eyes from particles generated by grinding or polishing. Avoid contact with oil, grease or sealing agent to the skin. In case of exposure to such matters, wash away with soap and warm water immediately.

### 4) Genuine Parts

Use parts and/or chemicals that are genuine items or recommended.
